FYI:

It is necessary for your child to be dropped off for the rehearsal. This allows her time to be placed in the lineup and to practice with the entire Corps. Children may get upset and confused if dropped off after practice has begun and lines have been set. You must watch the parade from a spot near the **end** of the route, so you will be waiting for your child when she reaches the end of the parade. Once our unit has passed you in the parade, fall in behind us to the end of the parade to meet your child. (Your child and the Chaperones will not be happy campers if they are left waiting after having marched!)

If gear is needed, it is essential to get your order in early, as gear does sell out. Order now for holiday gift giving as well. Any items not in stock will carry a shipping charge if needed prior to the start of a new session.
